

Turbo Group Partnership Brochure

Architecting What Endures.

From infrastructure to innovation, Turbo Group builds what lasts and sparks what's next—engineering value, pioneering progress.

Who We Are

Turbo Group Limited is a **family-owned multi-sector holding company**. We **build, operate, and scale brands** that address real pain points across **energy, finance, technology, healthcare, mobility, real estate, and consumer solutions**.

Our commitment is simple: **To create systems that serve people, solutions that scale, and investments that make a measurable difference.**

Our Operating Sectors

Energy

Smart grids, solar, metering, EPC, GIS & location intelligence that improve planning and reliability.

Finance

Inclusive digital banking, SME finance, and investment products spanning small savers to HNIs.

Advanced Tech & Geo-Intelligence

Cybersecurity, spatial analytics, and predictive geo-models that turn location data into strategic advantage and actionable systems for enterprises and governments.

Healthcare & Industrial Supplies

Reliable sourcing, industrial-grade medical equipment and essentials, and distribution systems designed for facilities and public health.

Smart Cities & Real Estate

Integrated urban infrastructure, intelligent buildings, and sustainable development solutions for modern spaces and sustainable cities that move economies forward.

Consumer Solutions

E-commerce platform delivering essential electrical and energy-adjacent supplies serving contractors, technicians and households at speed and scale.

Mobility & Infrastructure

From freight and courier services to ride-hailing and auto parts, we power every move of people, goods, and economies — while designing and constructing critical infrastructure like roads, bridges, and engineering projects that enable growth.

Why Partner With Turbo Group

We are **builders of systems**, not just service providers. Partnering with us means tapping into:

- **Scale + Execution**
Operational teams with deep sector experience and proven delivery frameworks.
- **Local knowledge with global perspective and standards**
Local market access and regulatory navigation combined with international best practices. While rooted in Africa, our solutions are engineered to solve global challenges.
- **Integrated ecosystem & proven multi-sector experience**
Cross-sell and deployment opportunities across multiple verticals (energy + payments + logistics + health) with over two decades of market leadership across energy, finance, healthcare, mobility, and technology.
- **Scalable ecosystem**
Our brands work in synergy, creating connected opportunities across industries.
- **People-first solutions**
Every product and service is designed to serve real communities with trust and reliability.

- **Resilient Legacy**

We don't chase short-term wins; we build businesses that last generations.

Partnership Opportunities

- **Joint Ventures** — Share expertise and resources to unlock new markets.
- **Technology Integration** — Collaborate on advanced digital systems, fintech solutions, or geo-intelligence projects.
- **Community Impact Partnerships** — Join us in projects that bring real change— from powering rural communities to improving healthcare access.
- **Strategic Alliances** — Co-development of tech, EPC projects, or national scale rollouts.
- **Technology & IP Partnerships** — SaaS, mapping, cybersecurity integrations, API & payments technology.
- **Distribution & Channel Partners** — Retail, supplier networks, logistics & fulfillment collaboration. Partner with us for reliable supply chains in healthcare, industrial goods, or consumer products.
- **Investment & Co-Funding** — Project financing, equity partnerships, blended finance for social infrastructure.
- **Public Sector & Development** — PPPs, donor collaborations, policy & advisory engagements.
- **Research & Capacity Building** — Joint research, knowledge transfer, and training programs.

Message From Our Founder

"At Turbo Group, we don't just build companies— we build systems that serve people beyond profit. Every brand is born from a real problem as a response to a real need, every venture a blueprint for progress designed to uplift lives and move societies forward. Partnering with us means being part of something built for impact, designed for scale, relevance, and generations to come."

— **Engr. Daniel Obemure, Founder & Executive Chairman**

Next Steps
